

Declaration Russia-Embargo

We are aware of the responsibility associated with our global business activities and are committed to conducting our business in a legally responsible manner.

With our production site in Germany and numerous sales offices worldwide, Menzel Elektromotoren GmbH has a global network that supplies numerous customers worldwide.

As a result, we take into account the Russia embargo according to Regulation 833/214 and have also taken note of the eleventh sanctions package with Regulation 2023/2014.

This enables us to ensure that our goods do not consist of materials of Russian origin.

With a clear focus on our upstream suppliers, there is a globally applicable code of conduct regarding compliance with the above-mentioned legal regulations.

We conduct annual supplier assessments and constantly review the requirements we have defined.

The suppliers are regularly visited by employees of Menzel Elektromotoren GmbH.

Hennigsdorf, 01.01.2024
